## Don't feel well

Why? Oh! I don't know. Worry I expect. Worrying about what?

Well, you know the servants are a heap of trouble.

The children worry me a heap. I am broken down.

in the morning I generally have a headache;

Alang towards evening my back feels as if it would break. Every time the baby cries I nearly jump out of my skin, I am

Your system needs toning up. Why not take Brown's Iron Bitters, the best strengthening medicine made. It will give you a good appetite, make your blood rich and pure, give you strength, make life a pleasure. Not only take it yourself, but give it to the children. It is pleasant to take: Small dose. The only iron medicine that don't blacken the teeth. But get the genuine-it has crossed red lines on wrapper. ! 'A'

THAT BOYCOTT

Of National Bank Notes to be Ordered by Sovereign.

HOW IT HURTS WAGEWORKERS.

It Would Contract the Currency More Than Two Bundred Million Dollars and Wouldn's Injure the National Banks-The General Master Workman's Absurd Proposition.

Washington, July 19 .- At the treasury department it was said that the plan of Mr. Sovereign, of the Knights of Labor, of boycotting national bank notes, if carried out, would prove more harmful than beneficial to the labor interests of the country, as it would contract the currency to the extent of \$211,000,000 without injuring the national banks.

"It would not hurt the national banks at all," said Mr. O. P. Tucker, deputy controller of the currency. "If people should refuse to receive their notes the banks would simply present them to the United States treasury for redemp-tion and receive legal tender notes, which they would continue to use in their business. The only effect would be to withdraw that much money from circulation as represented by the amount of notes redeemed. It is true that under the law the acceptance of national bank notes cannot be enforced, and no man can be compelled to take them as legal tender. The fact that they are accepted in every day transactions is because the government is be-hind them, and stands ready at any mo-ment to redeem them with legal tender. An effort to discredit national bank notes would therefore be an attempt to depreciate the government's currency. There are only \$211,000,000 of national bank notes in circulation, while there are \$950,000,000 of other kinds of money outstanding.'

TREND OF TRADE,

R. G. Dun & Co.'s Weekly Review of the Business Situation.

New York, July 19 .- R. G. Dun & Company's weekly review of trade, which issues to-morrow, will say:

The week's news is not entirely encouraging, but is all the more natural because there are signs of mid-summer duliness. Wheat prospects are not quite so good as last week, but still there are lower prices, as corn and cotton have been lowered. The exports of gold and the less favorable treasury returns for July are not unexpected and mean nothing as to coming business. There is perceptible decrease in the demand for most manufactured products and the actual distributions to consumers naturally lessens in mid-summer. Much of the recent buying was to anticipate a rise in prices and such The week's news is not entirely ento anticipate a rise in prices and such purchases foll off when prices have risen. There are still numerous ad-vances in wages, but strikes grow more numerous and important.

numerous and important.

In part, because business was unusually large in the first half of July, a quiet tone meets reasonable expectations. The heavy bank failure at Montreal does not affect florages. treal does not affect finances here, and is passing there with loss disturbance than was feared. Gold exports for the middle of July when crops are beginning to move, if not meant to affect stocks, can at all events have only a

stocks, can at all events have only a speculative significance.

Wheat has declined 2 cents for September, corn 1½ cents and cotton one-eighth for spot. Western receipts of wheat, not half of last year's, express disappointment at prices, while exports for the week was a quarter of last year's and for three weeks only 2,829,028 bushels, flour included, against 7,046,267 last year, show that foreign dealers are not year, show that foreign dealers are not regarding the situation with anxiety. Nor do British accounts indicate any anxiety about cotton. If unfavorable to some speculators, there are cheering indications, for it is better to have fair crows than to get high prices for what remains. Orders have so accumulated in iron products that some works forego the usual summer rest and eastern furnaces soon to begin blast will add about 5,000 tons weekly to the production. A few quotations have advanced—Gray forge and eastern bar—while Bessemer pig is a shade weaker at Pitts-burgh but the average of all prices is indications, for it is better to have fair

burgh, but the averages of all prices is 1 per cent higher for the week and 28.3 per cent higher than February 1. The strike of several thousand miners in the Marquette region may have important consequences. Producers of non-Bessemer ore have soid largely for the future at prices so low that they cannot add to cost of production and other mines in the northwest may be offected. Minor metals are stronger with sale of 4,000,000 pounds copper up to 11 cents for lake and tin very firm in spite of a

large visible supply.
Wool advanced in the first half of Wool advanced in the first half of July an average of one cent for 104 quotations of domestic by Coates Brothers, of Philadelphia, and is now 2 per cent higher than a year ago. Sales naturally leasen, being 7,980,000 pounds for the week, against an average of over 13,000,000 pounds for each of the two previous weeks, but prices are sustained by German and French buying in the London market. Manufacturers do not supmarket. Manufacturers do not sup-port the advance and are buying only for immediate needs, but holders who have taken for weeks past several times the quantity consumed, rre stiff.

Fallures for the week have been 250 in the United States, against 236 last year, and 39 in Canada against 44 last year.

Gold for Shipment.

WASHINGTON, D. C., July 19 .- The secretary of the treasury to-day received a tolegram from Mr. Jordan, U. S. treasurer at New York, stating that W. A. Croseman & Bros. had withdrawn \$1,-000,000 in gold, presumably for export from the sub-treasury in exchange for United States notes. Secretary Carlisle was seen but he declined to discuss the matter or express any opinion in regard to it. Other treasury officials were equally reticent, but some of those who have been watching the exchange market express the opinion that the shipment is the beginning of a movement in opposition to the Morgan-Belmont avadicate, who, it is slieged, are holding up the rates of exchange, which it is desired to bread down. a telegram from Mr. Jordan, U. S. treassired to bread down,

These is great danger in neglecting colle, cholera and similar complains, An absolutely prompt and safe cure is found in De Witt's Colle and Cholera Cure, Logan Drug Co., Whoeling, W. Va., B. F. Pesbody, Benwood, and Bowie & Co., Bridgeport, O.

Special Correspondence of the Intelligen-Sr. Many's, W. Va., July 19 .- After devotional exercises conducted by Rev. R. B. Ward, a few remarks were made by Prof. Deahl, touching upon the advantages offered by the West Liberty Normal School. He then introduced

Normal School. He then introduced by the subject of spsychology, which was further discussed by Rev. Ward, who argued that in teaching interest mast precede attention.

Gen. Hist was then introduced by Superintendent R. L. Pemberton and spoke of the necessity of studying the geography of a country in connection with its history.

Rev. J. M. Boland, president of the Barboursville college, was then introduced and addressed the teachers on the importance of education and the facilities offered by that institution.

The school system of West Virginia

The school system of West Virginia was then discussed briefly by Hon. Charles McKnight, after which the "Civil government of West Virginia," which was not finished on the previous day, was cash taken and provide the statement of the school of the statement of the school of the scho

day, was again taken up and finished by Mr. C. B. Johnson. Advanced civil government was in-troduced by Ross Wells and discussed

The subject of physiology was then introduced, the ladies of the W. O. T. U. taking part in the discussion. Very interesting papers were read by Mrs. A. S. Grimm and Mrs. N. Ogdin.

Grimm and Mrs. N. Ogdin.

This caused quite a discussion and resulted in setting to-morrow at 1:30 p. m. for the hearing of a recitation by some teacher to demonstrate the method of At Friday's session moral training was then taken up and discussed by Prof. Death, Rev. Ward and Rev. Death. The subject of physiology was again taken up and the method of teaching it

was demonstrated by Mr. Racer.

RAISED THE PRICE.

The Amount of Damages Claimed by Mr. Special Dispatch to the Intelligencer

PARKERSBURG, W. VA., July 19 .- The difficulty which Cashier C. H. Shattuck, of the Citizens National Bank, and Geo. C. Loomis, a timber dealer, had several days ago, which were detailed exclusively in the INTELLIGENCER at the time of its occurrence, is still a topic here for conversation. It will be remem-bered that Shattuck boosted Loomis out of his bank and Loomis instituted a suit for \$1,000 damages against Shat-tuck for subjecting him to an indignity. To-day Loomis withdrew the suit and instituted another one for \$5,000 dam-

ages.

The social and commercial prominence of both gentlemen causes the affair to be much talked about and commented upon.

SILVER CONFERENCE,

outhern and Northern Representatives Differ-Almost a Spill.

CHICAGO, July 19 .- The silver conference at the Auditorium to-day was marked by a strong difference of opinion between the southern and northern representatives. At one time a split in the ranks seemed imminent over a desire of the southern men to ignore

the bi-metallic league.

They maintained that the avowed purpose of the league was to assist the aspirations of their presidential candidate, Joseph Sibley. The men from the south desired to conduct their work in their section within the ranks of the Democratic party and in the north to conduct the agitation on non-partisan

basis.

Mr. Rucker, of Colorado, asserted that the trouble now in the west was "a growing belief that the silver wing was not the tail of the Democratic kite." Congressman Acklin, of Tennesses, healed the breach by the formulation of a compromise resolution providing that a committee of live be appointed to take charge of the distribution of literature. charge of the distribution of literature and that it be instructed to use its best efforts to avoid any antagonism with any other national organization.
General A. J. Warner, the president of the Bi-Metallic Lesgue, protested any

line of work that attempted to carry for-ward the silver agitation without being allied to the league. He said it had done all the work thus far.

Firemen Intered.

PHILADELPHIA, July 19 .- While going to a fire to-day, a hose carriage attached to Engine Company No. 18 was overturned at Nineteenth and Vine streets. Five of the six firemen on the carriage were seriously injured. C. Rider's skull was fractured and he was so badly that he died in a few minutes

Peter Collins, William McMahon, William Murphy and Patrick O'Connell all received serious injuries.

"WE direct the attention of our readors to the advertisement of Simmon Liver Regulator on another page. We have used the medicine in our family and are prepared to say, from experi ence, that for a torpid liver or a disordered stomach it is a good remedy. When travelling we usually carry some in our value."—From the "Christian Visitor," Smithfield, N. C.
